Corey –

Wed (2/10) unfortunately is already loaded with meetings for us particularly in the mornings, but several of us can be available from 2-3 that day. Thursday afternoon except from 230-300 is open.

Ken

Subject: FW: MOU for CCS

Ken,

We're working on setting up a meeting to talk about the MOU with Texas, and would appreciate it if you and your Class VI team could participate. We want to talk about the future MOU, and what (if anything) will need to change if TRRC gets Class VI Primacy. 11-noon on Wednesday is preferred, and we are actually off that Tuesday for Mardi Gras. Please let us know if Wednesday or one of the other times would work.

Corey

Hey Sean,

Thanks for getting back with us this quickly. Yes, that will work for us.

Corey,

I've talked to the people who are working on our primacy application and we all would prefer a meeting a couple weeks out, Feb 16-19. If that's ok, I can get more specific availability for that week.

Hey Sean,

Louisiana is working through our Class VI Primacy Application Process, and in the process we are talking to quite a few parties who are interested in Louisiana Class VI wells. Some of these projects are going to be pretty close to the TX state line, and the EPA is encouraging the use of MOUs to tackle these potential cross-jurisdictional projects. Would you have time to have a meeting about this next week? We will probably need to pull in Ken Johnson from R6 as well, so that we can talk about how the MOU needs to change when TX has primacy as well. If we can get a couple good options together for meeting times, I'll send the options over to Ken.

Thanks,

Corey Shircliff, P.G.
